

Anemo Slowburn
City Canyons Records

It appears that Brighton's very own rock band Anemo have been enjoyed over in the States before we have a chance to hear them.

American college radio has already taken them to their hearts and it's no surprise. Anemo could be the new British pop-rock phenomenon. Led by the stunning vocals of Hazelle Woodhurst this is magnificent stuff. Big words for big music. It's rock but there's a goth sound here too and CRS people might hear a bit of

Within Temptation and Stream of Passion too. As dynamic as it is catchy. Get out and buy it on September 18th! **Martin Hudson**
See Anemo 4th November at the HLC!!
